Förord.

Såsom af följande korta historik framgår, hafva fyra medarbetare deltagit i författandet af denna ordbok i dess nuvarande form, nämligen den kände ordboksförfattaren, läroverksadjunkten *Wenström*, universitetslektorerna *Morgan* och *Harlock* samt docenten *Ekwall*.

Det var år 1893, som Wenström och Morgan började samarbeta på ordboken. Deras första åliggande blef att genomse och sammandraga den del (omfattande de fem första bokstäfverna), som redan af Wenström och andra hade utarbetats.

Sedan arbetsmetoden för det följande fastställts, fortsattes arbetet under ett par år enligt denna metod men blef i februari 1896 helt plötsligen afbrutet genom Morgans frånfälle. Vid denna tidpunkt hade man hunnit till sidan 264 i tryck och till ordet *inom* i manuskript.

I Morgans ställe såsom Wenströms medarbetare utsågs nu undertecknad, hvilken åtog sig att fortsätta arbetet tillsammans med Wenström.

Till en början blef produktionen fortfarande ganska stor — före 1896 års slut lågo ytterligare ett 100-tal trycksidor färdiga till stereotypering —, men allteftersom tiden skred fram, minskades arbetshastigheten rätt betydligt dels på grund af den ene medarbetarens tilltagande sjuklighet, dels i följd af att den andre blef mera upptagen af andra göromål. På våren 1901, när bokstafven T nyss börjats, blef arbetsmetoden, i anseende till Wenströms hälsotillstånd, ändrad för att i någon mån lindra dennes arbetsbörda. Men Wenströms krafter började under det följande året alltmer svika, och det förunnades honom icke att föra denna — hans sista — ordbok, på hvilken han nedlagt så mycken mödosam flit, längre än till ordet *utgräfning*. Han afled den 4 augusti 1902.

Att nu finna någon, som kunde ersätta en så erfaren och skicklig arbetare på det lexikaliska området som Wenström, var naturligtvis en ganska vansklig sak, i all synnerhet som det icke fanns några som helst anteckningar bland Wenströms kvarlåtenskap, som kunde tjäna till handledning vid utarbetan af ordbokens återstående del. Lyckligtvis befanns emellertid licentiaten, numera docenten Ekwall vara villig och i tillfälle att åtaga sig det tidsödande och föga tacksamma värfvet att — tillsammans med undertecknad — försöka så fort som möjligt afsluta det genom omständigheternas makt så länge fördröjda arbetet. Det är också i icke ringa mån genom hans nitiska deltagande i arbetet, som verket nu, sent omsider, kan öfverlämnas i allmänhetens händer.

* * *

Hvad som ofvan är sagdt angående ordbokens tillkomst torde förklara, att oegentligheter och inkonsekvenser vid uppställningen icke kunnat undvikas. Dock är det att hoppas, att dessa icke skola visa sig vara af allvarsammare art.

Ett par smärre metodiska ändringar, som införts i senare delen af ordboken, förtjäna att omnämnas här:

1. Sådana sammansättningar af t. ex. *vatten*, som låta sig schematiskt gruppera, hafva anförts sammanträngdt under uppslagsordet **vatten-**; därefter följa i vanlig ordning andra sammansättningar, som vid öfversättning till engelska på något sätt afvika från de förut uppställda normerna.

2. Vid afstafningen af engelska sammansatta ord, hvilkas leder äro förbundna med hvarandra medelst bindestreck, har man från och med bokstafven T användt bindestreck såväl i slutet af första som i början af andra raden.

Alla tillägg och förslag till förbättringar mottagas med tacksamhet af undertecknad eller förlagsfirman.

Stockholm i juni 1904.

W. E. Harlock.

Obs. *Före den nya tryckningen af föreliggande arbete ha några förbättringar införts å stereotypplåtarna med anledning af vissa förslag, som godhetsfullt lämnats af några för saken intresserade språkmän.*

Stockholm i sept. 1908. ***W. E. H.***

Anvisningar till begagnandet.

Det *svenska ordförrådet* uppföres i bokstafsordning; dock ha reflexiva verb fått sin plats omedelbart efter motsvarande enkla verb. Regelbundet bildade sammansättningar anföras ofta gruppvis under första sammansättningsleden. *Om alltså en sammansättning ej återfinnes på sin plats i ordboken, bör den sökas under första leden.* T. ex. *öfolk* under 2. **ö**; jfr äfven **vatten-, ögon-.**

Utom de nederst på hvarje sida förklarade *tecknen* ha följande användts:

‖ för att undvika upprepning af den del af ett uppslagsord, som är gemensam för de följande i samma artikel och för böjningsformerna. Jfr **furst‖e, *-en*, *-ar*, -endöme, -inn‖a, *-an*, *-or*, -lig.**

| i *svenska* sammansättningar för att särskilja sammansättningslederna, då detta af tydlighetshänsyn synts vara önskligt. T. ex. **kor|stol, kors|tåg.**

| stundom i *engelska* ord af utrymmesskäl. T. ex. **octogenar|y(ian)** under *åttioårig.*

* för att beteckna 'sällsynt'.

Tre olika slag af *klammer* ha användts:

1. [ ] som utmärka ord el. dyl., hvilka kunna utelämnas utan skada för meningen; äfven i hänvisningar t. ex. [*störta i*] *fördärf* under **förstöra,** för att beteckna, att frasen bör sökas under **fördärf.**

2. ( ) som beteckna varianter af det föregående; då en betydelseskillnad föreligger, inskjutes ordet "el.".

Märk, att för tydlighetens skull både [ ] och ( ) stundom användas för att afskilja ett ord eller uttryck i synnerhet i de med den minsta stilen tryckta förklaringarna.

3. ⸤ ⸣ som meddela nödiga upplysningar om föregående engelska ords konstruktion och användning. Se t. ex. under **termin, vacker, ång-** m. m.

Egennamn anföras på sina platser i alfabetisk ordning, men endast de vanligast förekommande ha medtagits. Många ha dessutom utelämnats på grund af likheten mellan den svenska och den engelska formen, t. ex. *Macedonien,* Macedonia, *Korea,* Korea.

General Observations.

The arrangement of the *Swedish vocabulary* is alphabetical; reflexive verbs, however, are placed immediately after the corresponding simple verbs. Regularly formed compounds are often grouped under their first component. *If, therefore, a compound is not found in its dictionary place, reference should be made to the initial element.* E. g. *öfolk* under 2. **ö**; see, further, **vatten-, ögon-.**

Besides the *signs* explained at the foot of each page the following are employed:

‖ to avoid the repetition of that portion of a title-word which is common to those that follow in the same paragraph and to the inflected form. Cf. **furst‖e, *-en*, *-ar*, -endöme, -inn‖a, *-an*, *-or*, -lig.**

| in *Swedish* compound words where it is desirable, for the sake of clearness, to show of what elements they consist. E. g. **kor|stol, kors|tåg.**

| occasionally in *English* words to save space. E. g. **octogenar|y(ian)** under *åttioårig.*

* to denote 'rare'.

Three kinds of *brackets* are made use of:

1. Square Brackets [ ], enclosing a word or words that can be omitted without loss to the sense; also in references, e. g. [*störta i*] *fördärf* under **förstöra,** to imply that the phrase is to be looked for under **fördärf.**

2. Round Brackets ( ), giving variants for what precedes; where a marked variation of sense occurs, "el." (=*eller*, or) is inserted.

Note. Both square and round brackets are also sometimes employed, especially in the small-type explanatory matter, to separate off one word or phrase from the context for the sake of clearness.

3. Dashed Brackets ⸤ ⸣, embracing any information it seemed desirable to give, as to the construction or usage of the preceding English word. See, for instance, **termin, vacker, ång-,** etc., etc.

Proper nouns are inserted in their alphabetical places, but only those of most frequent occurrence are given. Some, furthermore, have been omitted on account of similarity of form in the two languages, e. g. *Macedonien,* Macedonia, *Korea,* Korea.

Under afledda ord såsom *adverb*, *substantiv* på **-het**, *particip* och *verbalsubstantiv* har ofta tecknet "&" eller ordet "afv." användts för att beteckna, att andra engelska motsvarigheter än de anförda kunna regelbundet bildas af motsvarande *adjektiv* eller *verb*. Så betyder under **trolöshet** och **trolöst** "faithlessness &" och "faithlessly &", att *unfaithfulness*, *perfidiousness* och *unfaithfully*, *perfidiously* kunna bildas af de under adjektivet **trolös** anförda engelska orden. Under **utväljande** betyder "afv. choice, selection", att utom *choosing* [*out*], *selecting*, *making choice of*, regelbundet bildade af de under **utvälja** befintliga öfversättningarna äfven "choice" och "selection" kunna användas.

Vid öfversättning af *yrkesbenämningar* och dylika bör ihågkommas, att dessa i allmänhet ej kunna användas som titlar framför personnamn i engelskan. Jfr: *Skräddar P.*, [Mr.] P., the tailor; *Öfverstinnan Q.*, Mrs. Q. [, wife of Colonel Q.].

Under derivative words, such as *adverbs*, *substantives* ending in **-het**, *participles* and *verbal substantives*, the sign "&" or the word "afv." has often been employed to signify that other English equivalents besides those given can be formed regularly from the corresponding *adjective* or *verb*. Thus, under **trolöshet** and **trolöst**, the renderings "faithlessness &" and "faithlessly &" denote that *unfaithfulness*, *perfidiousness*, *unfaithfully*, *perfidiously* can be formed from the words given under the adjective **trolös**; under **utväljande** the rendering "afv. choice, selection" implies that besides the renderings *choosing* [*out*], *selecting*, *making choice of*, formed regularly from the words given as renderings of **utvälja**, "choice" and "selection" may also be used.

Occasional use has been made of marks of quotation, where a Swedish word or phrase has been transferred into English rather than translated. Cf. **auditör, måbär.**

After the *Swedish substantives* there are given the form of the enclitic article and the inflection for the plural. E. g. **goss‖e, *-en, -ar:*** *gosse* = boy, *gossen* = the boy, *gossar* = boys. [See, further, notes at foot of each page.]

The small figures appended, above the line, to the *Swedish verbs* record the conjugations to which they belong. [See, further, the Swedish Grammars.]
